CONCRETE BLOCK PLANT
MODEL MN2S

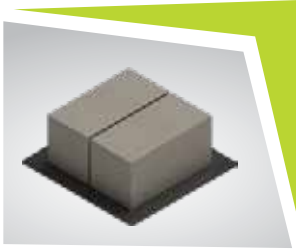

Model MN2S Concrete Block Plant Specifications

| SL. NO. | DESCRIPTION | POWER (KW) |
|---------|---|------------|
| 1. | 4/3/2 Nos. Aggregate Storage Bins 5 cu.m. bin each for bulk storage of aggregate and sand material | 4.5 |
| 2. | Automatic Cement Feeding and Batching System Screw conveyor for feeding cement automatically from holding hopper or silo to cement weigh batcher | 5.5 |
| 3. | Inclined Material Transfer Conveyor Designed to convey aggregate and sand to mixer | 4 |
| 4. | Pan Mixer Model Turbo 1000 Designed to mix up aggregate & cement with output of 0.5 cu.m. concrete per batch | 25 |
| 5. | Inclined Mud Belt Conveyor Designed to feed concrete mix from mixer to MN2S Machine | 4 |
| 6. | Concrete Products Machine Model MN2S Designed to produce concrete products on steel pallets of size 550 x 530 x 6mm | 38 |
| 7. | Hydraulic Offbearer with Support Structure Designed to pick up two pallet at a time for loading into curing racks. | - |
| 8. | Steel Production Pallet – 550 x 530 x 6mm Designed to hold concrete product during production, curing and handling | - |
| 9. | Steel Curing Racks For Storage of concrete products on pallet during curing process | - |

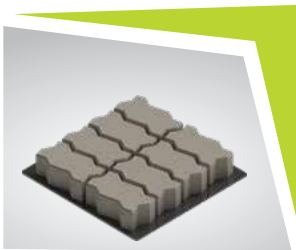

Model MN2S PALLET SIZE: 550x530x6mm

Hollow/ Solid Block
400x200x200mm
(2) at a time
4,800 per 8 hours

Hollow/ Solid Block
400x150x200mm
(3) at a time
7,200 per 8 hours

Unistone Paver
225x112.5x80mm
(8) at a time
19,200 per 8 hours

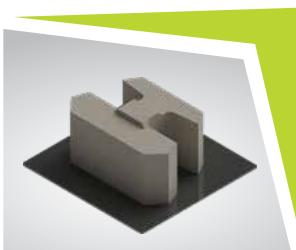

Rectangular Paver
200x100x80mm
(8) at a time
19,200 per 8 hours

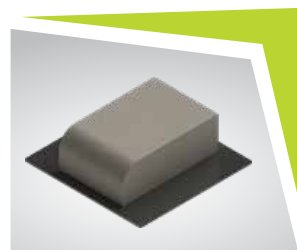

Flyash Brick (On Edge)
230x110x70mm
(12) at a time
28,800 per 8 hours

Flyash Brick
(With Frog)
230x110x70mm
(8) at a time
19,200 per 8 hours

Retaining Wall Block
450x300x200mm
(1) at a time
2,400 per 8 hours

Kerbstone
450x150x300mm
(1) at a time
2,400 per 8 hours
